#LandscapesRock Social Media Challenge

Landscapes Rock is returning to an intelligently designed outdoor space near you in May and June! This social media scavenger hunt encourages design professionals and members of the public to visit places designed by Manitoba Landscape Architects and learn about more about the industry.

The participants will have to search for prize rocks hidden in various landscapes in and around Winnipeg including the CSLA tour locations. Video and photo clues will be shared through our social media platforms to help participants in their search! Upon successfully finding a rock, participants will post the discovery on Instagram with the hashtag #landscapesrock and tag @mala.landscape.architects to claim their prize. Those who visit the locations but do not find a rock can still tag us in a social media post and be entered into a final grand prize draw!

Event Code of Conduct

We expect that everyone will be on their best behavior! Please go to this link to read the event code of conduct: www.csla-aapc.ca/event-code-conduct

Participate in the Find a Fellow-Find a Student Challenge to win!

Are you a student? Are you a Fellow? If so, you can participate in the Find a Fellow-Find a Student Challenge.

Find a CSLA Fellow or a student during the Congress (they will have a ribbon on their badge) and take the opportunity to ask them about their practice, their career path, and more! Ask them to sign the back of your badge, and when the Congress is over, email a picture of your badge to the CSLA at executive-director@csla-aapc.ca.

The student with the most signatures will win free registration to a future Congress, and the Fellow with the most signatures will get bragging rights!

Photos

Photographs may be taken at this event. If you do not consent to your photograph being used in future CSLA distributions, please notify the CSLA office.
